

CHOOSING NOT JUST A COURSE, BUT A FUTURE

CAREER ANALYSIS WITH DATA

WHEN WE LOOK AT THE FIELDS THAT ELIMINATE THE FEAR OF POST-GRADUATION UNEMPLOYMENT, WE SEE THAT FIELDS LIKE EDUCATION AND GEOPHYSICS HAVE THE LOWEST UNEMPLOYMENT RATES. HEALTH AND AGRICULTURE DEPARTMENTS ALSO SEEM TO BE THE MOST RELIABLE OPTIONS FOR FINDING A JOB IMMEDIATELY AFTER GRADUATION.

HIGH MEDIAN EARNINGS ARE PREDOMINANTLY OBSERVED IN ENGINEERING AND COMPUTERS & MATHEMATICS MAJORS, INDICATING THAT INCOME ADVANTAGES ARE STRONGLY ASSOCIATED WITH TECHNICAL AND QUANTITATIVE SKILL SETS RATHER THAN BROAD DISCIPLINARY CATEGORIES.

Do STEM Majors Provide Better Earnings Outcomes?

Distribution of median earnings across STEM and non-STEM majors

WHEN COMPARING SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS (STEM) MAJORS TO OTHER MAJORS, IT'S CLEAR THAT STEM GRADUATES GENERALLY START THEIR CAREERS WITH SIGNIFICANTLY HIGHER SALARIES. WHILE SALARIES IN OTHER MAJORS REMAIN AT A CERTAIN LEVEL, THE EARNING POTENTIAL FOR STEM GRADUATES IS QUITE HIGH.

THE RELATIONSHIP BETWEEN EARNINGS AND UNEMPLOYMENT RISK VARIES SIGNIFICANTLY AMONG THE MAJOR CATEGORIES. WHILE MANY HIGH-PAYING FIELDS STILL FACE A MODERATE RISK OF UNEMPLOYMENT, SOME LOW-PAYING MAJOR OFFER RELATIVELY STABLE EMPLOYMENT, REVEALING A BALANCE BETWEEN INCOME POTENTIAL AND JOB SECURITY.
